Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

The attorneys of record discussed their views on the submitted exhibits (exhibits A through C, provided with the applicant's affidavit /declaration under rule 1.131), filed on 26-May-2005 and stated that the exhibits would satisfy the establishment of the "reduction to practice" as claimed by the applicant, disqualifying Lipkin as prior art. The examiner stated that the disclosed exhibits failed to provide a showing that the claimed invention actually existed and worked for its intended purpose at the time of claimed reduction to practice. As an example, the examiner pointed out that the exhibits did not clearly establish the limitation, "wherein the database wrapper provides an additional abstraction layer between the domain object factory and the business component."

The attorneys discussed the option of establishing "conception" prior to the Lipkin reference date, followed by proof of "diligence". The examiner suggested for the applicant to "propose" an amendment to the independent claims (as supported by the specifications), differentiating the invention from the cited prior art. The attorneys agreed to discuss an amendment proposal with the applicant for further discussions with the examiner.
